

# Comprehensive Audit and Analysis for Effective Digital Presence

BADM – Project 5

# Introduction to Wipro

**Wipro Limited** is an Indian multinational **technology services and consulting company** based in Bengaluru, Karnataka.

Founded on **December 29, 1945**, in Amalner, Maharashtra, by MH Hasham Premji, Wipro initially operated as a vegetable-oil manufacturer (Western India Vegetable Products Limited)

Under Azim Premji's leadership from 1966 onwards, the company pivoted into IT and software services, evolving into a global tech player by the 1990s

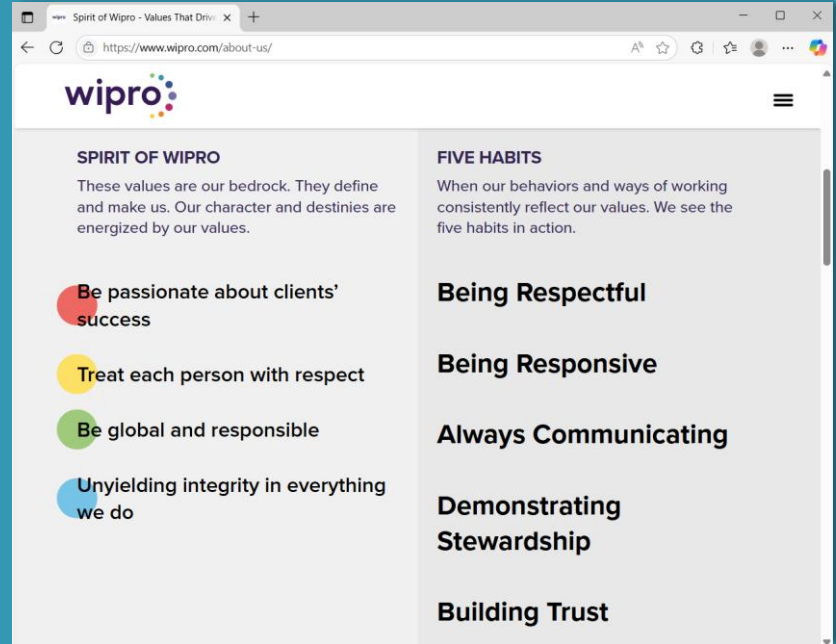

Wipro offers services including **IT and business consulting, software development, digital transformation, cloud, AI, cybersecurity, robotics, data analytics, and business process outsourcing**

# Website Design & Visual Appeal

**Modern, professional aesthetics:** The homepage features large hero visuals, clear branding with the Wipro logo, and vibrant colour accents. It communicates a polished and corporate look

**Consistent brand identity:** Across internal pages like consulting, engineering, and verticals, Wipro maintains a consistent visual language, typography, and layout

 <https://www.wipro.com>

# User Experience (UX)

**Clear navigation structure:** “Services,” “Industries,” “About Us,” “Case Studies” and more are easily accessible through a top menu. Regional and language-specific navigation (e.g. India & Middle East) tailored content to user locality

**Thought leadership & rich content:** Case studies, strategic insights, and downloadable content (e.g. PDFs on transformation services) support engagement and content depth

**UX maturity through designed collaboration:** Wipro works with its strategic design agency to deliver user-centric UX through wireframes, personas, prototyping, user testing, and iterative UX audits

# SEO & Performance Metrics

**Optimized content strategy:** Wipro offers in-house search marketing and SEO services, including on-page, off-page, technical, and campaign analytics for clients

**Improved organic presence:** Case studies on tools like Adobe Experience Manager Edge Delivery Services report SEO growth like “3× more organic traffic” through faster content updates and simplified infrastructure

A screenshot of a web page analysis tool interface. The top navigation bar includes tabs for 'SUMMARY', 'Headers', 'Images', 'Links', 'Social', and 'Tools'. The 'SUMMARY' tab is active, displaying various metadata fields and their values. Below the main content area, there is a table with columns for H1, H2, H3, H4, H5, H6, Images, and Links. At the bottom right, there are links for 'Robots.txt' and 'Sitemap.xml'.

# Audit Findings

## Common Keywords

Here are the most common keywords we found on the page:

wipro services consumer read back innovation network report banking business

## SEO Description

The meta description is 156 characters long, which is good. Digital transformation services enhance business agility. Leverage Wipro's IT consulting, FullStride Cloud, Engineering Edge, and AI capabilities for growth

## Links Ratio

The page has a correct number of internal and external links.

**internal:** 91

**external:** 9

# Website Performance

Mobile Desktop

Core Web Vitals Assessment: **Failed** ⓘ

Collapse view

## ● Largest Contentful Paint (LCP)

## ● Interaction to Next Paint (INP)

## ▲ Cumulative Layout Shift (CLS)

## OTHER NOTABLE METRICS

## ● First Contentful Paint (FCP)

## ● Time to First Byte (TTFB) ▲

CLS = **0.32 (red)** → **Poor**  
**44%** of page loads experience severe layout shifts.

Only **16%** are stable (good).  
This means Wipro's page likely has **unstable elements** like late-loading ads, images without defined sizes, or dynamic fonts that push content around after initial render.
